## HOT OFF THE PRESS

With Office Cupboard's Doug and Michell retiring and closing the store, Island Hardware is excited to continue offering the large poster/floor plan printing service, along with the large laminator, for our community! Doug and Michell will be staying on call for us as consultants so we don't lose this cool service. Here's hoping we don't have to bother them too much in their well deserved retirement years!

**Our main supplier is no longer selling

handy staff at IHS \$100

out we have anything this nice)
