If you have some cedar furniture orders, lets get those in so you can be enjoying your beautiful gardens on your deck this spring!

We have
TERRITORIAL
SEED COMPANY
in stock!

✧ **Renee's Garden** ✧
and bulbs will be in the first week of February!

DEALS ON WHEELS FOR CHARITY

How would you like to become the third proud owner of a beautiful Newmar Ventana class A motor coach, and at the same time, help those who have lost everything during Hurricane Helene.

The net proceeds from the sale, which should be about \$50,000, will be donated directly to Foursquare Disaster Relief, who will distribute it to help provide necessities to the Appalachia flood victims.

Newmar is considered by many to be one of the finest coach builders anywhere. It is a 33 foot 2008 model 3322 Newmar Ventana with **THREE** slides. This coach also includes a Cummins 300HP with only approximately 64,000 miles, Banks Power System, auto leveling, back up camera, electric awning, trailer hitch, **ELECTRICAL** Onan diesel generator, central air, walk around bed and comfort steering! It is an extra clean unit that has always been stored under cover as well. So why am I letting it go to a new home? Sadly, I think that even though it is the smoothest and easiest rig of its size that I have driven, it is still a 33' bus with about every option available when it was built. I am getting to the age where my confidence level tells me that I should probably stick with my smaller 27' class C gas rig.

You can take a closer look at www.countrymotorhomes.com. It is presented by my friends, John and his brother, Terry, at Country Motorhomes. (360) 428-5040 I have known them over 20 years. They are simply the best!

EXTRA BONUS!

Bring in this Hardware Herald for \$1,000.00 OFF the asking price!
